

WB-ARROWHEAD

Hard Red Winter

Northwest Region

- Excellent Milling and Baking Quality
- Very Good Foliar Disease Resistance
- If Under Irrigation, Will Require a Plant Growth Regulator
- Excellent Yield Potential

AGRONOMIC TIPS

- Protein quantity and nutrient management begin with a representative soil sample taken as close to the planting season as possible.
- If planting under intense irrigation management conditions, straw height management should be considered.

The ratings are approximate and should not be considered absolute. Based on internally conducted trials relative to other WestBred® brand wheat varieties.

Individual results may vary, and performance may vary from location to location and from year to year. The result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.
